AN OFFICIAL
PUBLICATION
OF THE NEWARK
BOARD OF EDUCATION

**YOUR
VOICE
IS
YOUR
VOICE**

Since April 1983, the members of the Newark Board of Education have been elected by the general public. This year the Newark Board of Education Election will be held on Tuesday, April 4, 1989.

Voters will have the opportunity to exercise their choices between candidates for five seats on the school board. In addition, voters will have the opportunity to vote yes or no on the proposed School Board budget.

The school district of Newark is strongly urging all registered voters to participate in the School Board Election. Your vote is your voice. You are encouraged to use that voice to decide who shall make policy for Newark's public school students, and how much should be spent on their education.

Selecting school board members and setting the budget by the vote of the majority express the highest form of democracy. Only the participation of the people can ensure the protection of democratic ideals.

The School District is calling upon all registered voters to take part in charting the future course of Newark's school children.

On Tuesday, April 4, 1989, go to your polling place and **exercise your right to vote.**

**VOTE
APRIL 4, 1989
NEWARK
BOARD OF
EDUCATION
ELECTION**

Newark students are making real progress in the face of enormous obstacles. Battered by old buildings, rapidly changing technology and overwhelming social problems, through determination and a team approach to education, the district is making a positive difference for kids.

Much remains to be accomplished and there are no easy answers. Yet, based on progress to date, the district has every reason to be optimistic about the future.

The secret to success is hard work. There are no shortcuts, there is no easy way. The public school system in Newark, with the cooperation of its students, parents, community members and the business community, has strived diligently to move forward. The statistics from standardized tests, attendance charts and implemented programs document that genuine effort is being expended to bring about improvement and continued progress.

The Newark Board of Education is committed

to working with all sectors of the community toward the goal of educational excellence for Newark's children.

It is important for voters and taxpayers to know what is happening in the schools. Please examine the information that has been assembled for your review. It clearly demonstrates that Newark's schools are moving in the right direction.

Positive Results

Advanced Students Are Progressing... 188 high school graduates in 1998 received \$1,118,309 in scholarships.

- 2,128 students graduated from high school in 1998

- 54% of the 1998-graduates are attending post-secondary schools...

32% - 4 - year colleges/universities

10% - 2 - year colleges

12% - Business, secretarial, technical institutions

- 27% of the high school-graduates are gainfully employed

Every secondary school has developed SAT (Scholastic Aptitude Test) preparation courses. Additionally, a Saturday SAT review class is conducted in collaboration with Rutgers University.

Current year SAT information:

- 10% of the Senior Class scored above 800 on the SAT
- 11% scored above 850

Current year PSAT (Preliminary Scholastic Aptitude Test) information:

- 5% of the Junior Class scored above 900 on the PSAT
- 6% scored above 800

Steady Academic Growth

The progress of students in the Newark Public School System has been consistent over the past four years. The following statistics reflect the positive movement based on standardized tests such as the Comprehensive Test of Basic Skills (CTBS) and New Jersey's High School Proficiency Test (NJHPT).

Mathematics

Student progress over the past four years has been on-going. All grade levels showed improvement. The increases in median national percentile scores on the CTBS test are shown below:

Grade Level	Increase in NP-1994-1995
Kindergarten	16.8
Grade 1	8.8
Grade 2	8.8
Grade 3	9.4
Grade 4	8.8
Grade 5	13.8
Grade 6	11.8
Grade 7	16.8
Grade 8	18.8
Grade 9	19.8
Grade 10	19.4
Grade 11	18.8
Grade 12	8.8

Reading

Improvement took place at each grade level over the past four years. Exceptional progress, as evidenced by higher median national percentile scores on the CTBS test, was shown at the following grade levels:

	Increase in NP (1984-1988)
Kindergarten	12.7
Grade 3	4.1
Grade 5	4.0
Grade 6	7.5
Grade 7	6.6
Grade 8	5.1
Grade 11	3.3

Good News About HSPT - High School Proficiency Test

Secondary school students in Howard continue to meet the challenges presented by the High School Proficiency Test. Dramatic improvement has taken place during the three years that the test has been given.

Reading

Secondary students have done exceptionally well on the reading segment of the test. In 1985, only 40% passed; in 1987, 62% passed and in 1988, 68% passed.

The results in mathematics and writing experienced similar growth going from 31% to 38% to 46% and from 36% to 57% to 63% respectively.

Student Attendance Up

Learning can take place when students attend school with regularity. The district has made the improvement of student attendance a major priority, especially in secondary schools. Progress has been consistent. In 1985-86 the rate of attendance for secondary students was 80.8%, in 1987-88 it jumped to 82.5% and as of December in the current year the rate is 85.5%. The district rate has gone from 82.0% in 1985-86 to 86.5% in 1987-88.

Several initiatives were implemented to bring about attendance improvement. These included:

- A new 10 day absence policy
- Attendance Improvement Plan at each school

- Hiring additional Attendance Counselors
- Working with community agencies in Project Back
- Developing a working relationship with the judicial system
- Closely monitoring students' reading of homeless shelters

Clean, Safe Schools

Establishing a proper learning environment for students is extremely important. Although the average age of schools in Nevada is 70 years, major efforts have taken place to maintain them. Extensive rehabilitation work has been done at Barringer Preparatory School, West Side High School and the new Valhalla Middle School. A concentrated effort has been made by teams of workmen to repair the following schools:

Arlington Avenue	E. Ann Pegg
Ann Street	Ellen Davis
Arts High	Harold Wilson
Barringer High	Maxim K. Shatalov
Brinkley High	Arden Green
Brinkley Jr. High	Gulman Street
Camden Middle	Roberta Camacho
Camden Street	Shirley High
Carle High	Wesquatch High
Charleston Avenue	Winton Avenue
Cleveland	

To strengthen the district's effort to make schools safe, wherever possible, security guards are patrolling the exterior of buildings to prevent intruders from entering schools. Additionally,

magnetic door locks have been installed at Wesquatch High School, West Side High School, University High School and Valhalla Middle School.

Making the Board's Business the Community's Business

Set-Aside Program

The Nevada Board of Education is actively and affirmatively committed to seek business relationships with small businesses, women and minorities. The goal is to ensure that a fair portion of the Board's total purchases of goods, equipment, services and construction is awarded on fair and competitive basis.

The legislative basis is:

P.L. 1985-Ch 49 B - An Act concerning the establishment of small, women, and minority business set-aside programs by the board of education.

The Board has approved Policy #3337, *Minority Business, Small Business and Female Set-Aside Program*.

Procedures and programs will be developed to further implement this program. The board is currently implementing the Set-Aside program through its Purchasing Department and Design & Construction Department.

Commitment to Excellence

Many initiatives have been implemented to keep the schools of Newark moving in a positive direction. Some of these initiatives are:

Newark Education Council

The Newark Board of Education has convened and expanded its collaboration with the Newark Education Council.

Yaskow Redistricting Project

In an attempt to respond to the problems of overcrowding in the West Ward, and to eliminate busing of elementary students, the Yaskow Redistricting Project was implemented.

Level III Interim Activities

The district has taken an aggressive approach to problems cited in the Department of Education's Level III Monitoring Report.

Reorganization of Central Administration

A reorganization plan was implemented in September, 1989.

Newark Teachers Union Contract

A contract was signed in a timely manner between the Newark Teachers Union and the Newark Board of Education through efforts of the

Executive Superintendent and staff members, along with substantial input from Board members.

Basic Skills

The Division of Special Projects has introduced several initiatives, which have already impacted on student achievement.

Staff Development

A strong staff development program continues to be a district priority. Areas of staff member participation include:

- World History
- Black History
- New Teacher Program
- Supervisory Orientation
- After School In-Service
- Custodial Training
- Management Training
- I.T.I.P.
- New Administrators
- School Improvement Team Training
- Parent Training

Curriculum

In the area of curriculum, several new guides have been developed. These include:

- Business
- Mathematics
- Science
- World History

- Vocational Education
- AIDE
- Special Education
- English Language Arts

New Athletic Leagues

Another competition has been expanded to include out-of-district conferences.

School/College Exchanges

The cluster concept has been strengthened with high schools and colleges meeting with feeder elementary schools on a regular basis to focus on skill deficiencies and ways to resolve them.

Computer Education

A key focus within the district has been the development and advancement of computer education skills.

Bilingual Education

The District's Bilingual Education Plan has been approved by the New Jersey Department of Education. It provides better services to schools and reflects regular program audits.

Student Libraries

It is the aim of the Executive Superintendent to upgrade all school libraries by providing more reference materials and books where the need exists.

Art and Music

In the areas of art and music, equipment and supplies have been purchased so that these programs can continue to provide needed services to students.

1989-90 PROPOSED CAPITAL BUDGET PUBLIC QUESTION

Should the Board of Education of the School District of the City of Newark, in the County of Essex, New Jersey, be authorized to issue bonds or other obligations of the District, which, in the Board's discretion may be qualified pursuant to N.J.S.A. 18A:24-85 et seq. for the purpose of financing certain various capital projects, being the construction, repair, renovation and improvement of certain educational facilities of the District listed herein, including legal, architectural, engineering and other costs related to said projects including the financing thereof, said bonds or other obligations to be issued in a principal amount not to exceed \$25,000,000.

*Federal amount is 4% of the state budget. The amount will be distributed after the April 1st school board election.

Each year, the Board which elects and determines the school district's members must determine the amount of money needed to maintain the school system in the upcoming year.

Funding for public schools is received from three main sources: state property taxes, grants from the state, and the federal government.

In Wisconsin, each school district submits a 10-month budget - usually beginning July 1st. However, additional 10-12% from the federal (2000-2001) has been included in the budget. The federal (2000-2001) has been included in the budget. The federal (2000-2001) has been included in the budget.
